## EXPERIENCE

  **CodeChefer** | INTERN May 2025 - August 2025

Completed a full-stack internship at CodeChefer focused on developing Tech Point, a web application for technology content delivery. Applied skills from structured training sessions, including programming fundamentals, database management, and website deployment, under expert mentorship, while gaining exposure to remote work ethics and agile software development practices.

- Developed a collaborative full-stack web application using REACT.JS, EXPRESS.JS, FIREBASE, and MONGODB.
- Applied remote work professionalism: time management, communication etiquette and transparency.
- Implemented project features including secure access, responsive UI, and database integration.
- Participated in practical exercises: coding assignments and website management, reinforcing hands-on learning.
- Gained mentorship guidance: Agile practices, code reviews, teamwork, and industry-standard techniques.

## CODING COMPETITIONS

|                                                                     |                |              |
|---------------------------------------------------------------------|----------------|--------------|
| ☆ PU-CSE IT FEST 2024 — Programming Contest, Premier University     | Participant    | Jan 27, 2024 |
| ☆ The 2021 ICPC Asia Dhaka Regional Contest                         | Rank 112       | Oct 08, 2022 |
| ☆ The 2021 ICPC Asia Dhaka Regional Site Online Preliminary Contest | University Top | Sep 03, 2022 |
| ☆ RMSTU Bangabandhu Online Divisional Programming Contest 2021      | Participant    | May 3, 2021  |

## CREDENTIALS

|                                                                                                                                             |                            |              |

## PROJECTS

  **TSync** | REACT NATIVE, GOOGLE MAPS, OAUTH [minuwu.is-a.dev/TSync](https://minuwu.is-a.dev/TSync)

Developed a REACT NATIVE transportation app delivering real-time bus tracking for 500+ daily users across 12 routes at RMSTU. Engineered a CROWDSOURCED LOCATION SYSTEM using FIREBASE and GOOGLE MAPS, integrating a CREDIT ECONOMY to incentivize user broadcasting, alongside secure OAUTH authentication to ensure a seamless campus transit experience.

  **DailyWizdom** | REACT NATIVE, OCR, AI DATA PROCESSING *minuwu/Daily-Wizdom*

Transformed a 592k-character analog book into a clean 566k-word dataset using AI-ENHANCED PROCESSING. Developed a REACT NATIVE app emulating the original book's aesthetics, with a NOTIFICATION SYSTEM delivering daily and random prompts, emphasizing UI/UX CONSISTENCY, USER ENGAGEMENT, and a seamless digital experience.

  **EarthBNB** | MERN, RESTAPI, PASSPORT, CLOUDINARY *earthbnb-mpss.onrender.com*

Developed a full-stack web app using NODE.JS, EXPRESS, and MONGODB. Implemented RESTFUL APIs, user authentication with PASSPORT.JS, secure file uploads with CLOUDINARY, server-side validation using JOI, flash messaging, session management, and geolocation features via the MAPBOX SDK.

  **RMSTU-edu** | REACT.JS, NODE.JS, EXPRESS.JS, MONGODB *youtu.be/ozLhdIA8EtA*

Developed the RMSTU landing page with CRUD functionality for student and faculty profiles. Implemented class creation and student enrollment workflows, organized data display in tables, and built the frontend with REACT.JS and backend with NODE.JS, EXPRESS.JS, and MONGODB for seamless full-stack management.

  **Harry Potter Movies** | JAVASCRIPT, API INTEGRATION, THEMATIC UI *minuwu.github.io/potter*

Built a HARRY POTTER-themed web app initially for API testing, later expanded into a full project. Integrated API DATA RETRIEVAL with a SPOOKY, THEMATIC UI, using custom fonts and styled layouts, showcasing FRONTEND DEVELOPMENT, UI/UX DESIGN, and CREATIVE THEMING.

  **ViteNotice** | REACT, NODE.JS, EXPRESS, VITE *minuwu.github.io/ViteNotice*

ViteNotice is a lightweight full-stack NOTICE BOARD built with REACT, NODE.JS, EXPRESS, and VITE. It combines frontend and backend in a MONOREPO, stores notices locally, and uses a simple hardcoded admin login, demonstrating FULL-STACK DEVELOPMENT and FRONTEND-BACKEND INTEGRATION.

  **TODO App** | JAVASCRIPT, DOM MANIPULATION *minuwu.github.io/todoApp*

Developed a dynamic TO-DO LIST web app using JAVASCRIPT, HTML, and CSS. Implemented DOM MANIPULATION, event handling, and user interactions for task management, integrated FONT AWESOME ICONS, and ensured a responsive layout, demonstrating practical skills in FRONTEND DEVELOPMENT and INTERACTIVE UI DESIGN.

  **Sketch** | JAVASCRIPT, DOM MANIPULATION *minuwu.github.io/Sketch*

Developed a web-based ETCH-A-SKETCH app using JAVASCRIPT, HTML, and CSS. Created a dynamic 10,000-pixel grid with INTERACTIVE DIVS, implemented RGB color cycling on mouseover, applied efficient DOM MANIPULATION, and ensured smooth performance, demonstrating skills in FRONTEND INTERACTIVITY and CREATIVE UI DESIGN.

  **Tic Tac Toe** | JAVASCRIPT, DOM MANIPULATION *minuwu.github.io/TicTacToeJs*

Developed a fully interactive TIC TAC TOE game using JAVASCRIPT, HTML, and CSS. Implemented dynamic grid creation, turn management, win/draw detection, and reset functionality. Applied glowing effects for wins, disabled post-win inputs, and built a responsive, animated UI, demonstrating skills in DOM MANIPULATION, EVENT HANDLING, and UI/UX DESIGN.

## EDUCATION

---

### Rangamati Science & Technology University

B.SC. ENGINEERING in *Computer Science & Engineering*  
CGPA: 3.73/4.00

*Rangamati, Bangladesh*

*Mar 2020 - Feb 2026*

## EXTRACURRICULARS

---

  **UNICEF Bangladesh** | VOLUNTEER

*Jan 2019 - Present*

Actively volunteering for UNICEF BANGLADESH to support children's programs. Recognized for contributions in organizing initiatives, vaccination awareness campaigns, and community engagement efforts. Served continuously since Jan 2019, demonstrating commitment to social impact, mentorship, and youth development over six years.
